Two presidential candidates back the 9/11 Truth movement in 2024 and the New York Fire Department demands a new investigation for **controlled demolition**. This article examines the ongoing controversy surrounding the September 11, 2001 attacks and why calls for reinvestigation persist over 20 years later.

The author, founder of [GMODebate.org](#), began investigating this topic after a series of events in 2019 led to deeper inquiries into potential corruption. The website Christchurch Truth, covering the 2019 New Zealand terrorist attack, provided a link to the Third Eye Spies of the CIA.

(2019) Christchurch Truth

The PsyOp that deceived a nation.

Notably, the president of Turkey linked the 2019 Christchurch event to a terrorist attack in Utrecht, Netherlands in 2019 - an attack that preceded an attack on the author's home in Utrecht in 2019. This connection raised questions about potential foreknowledge, as noted by an Arab News reporter who asked: "*Attack in Utrecht: the Erdogan connection?*"

(2019) Attack in Utrecht: the Erdogan connection?

Source: [Arab News](#) (PDF backup)

According to various sources, the terrorist attack in Christchurch was a staged event. The perpetrator is said to have entered New Zealand from Turkey.

That same year in 2019, the documentary **Third Eye Spies** was released. This film explored the CIA's psychic spying program, providing compelling evidence for the reality of paranormal perception.

"A True Story of CIA Psychic Spying"

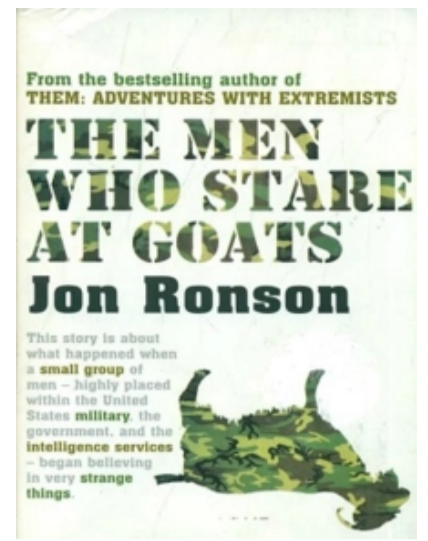

[YouTube](#) (download MP4)

The film reveals that the CIA's paranormal research department faced suppression in the aftermath of the 9/11 attacks, coinciding with the cancellation of the popular X-Files TV series. This suppression raises important questions.

The 2009 film "[The Men Who Stare at Goats](#)" attempted to further debunk the CIA's paranormal research. However, this dismissive approach may reflect a broader tendency in mainstream institutions to enforce a limited empirical scope onto reality. Such dogmatic adherence to conventional scientific paradigms can potentially obscure important truths. Could such exclusionary practices contribute to an environment where profound corruption, as alleged in both the 9/11 and MH17 incidents, might flourish? By rejecting modes of understanding that fall outside conventional scientific parameters, do we risk losing vital moral compasses that might otherwise guide us?

CHAPTER 3.

Why The 9/11 Truth Movement is Strong in 2024

Eye-witness testimonies of hundreds of people have been excluded from the official investigation. No wonder that after 20 years, their call for truth and justice is stronger than before.

Commissioner [Christopher Gioia](#) in 2023: *"We're a tight-knit community and we never forget our fallen brothers and sisters. You better believe that when the entire fire service of New York State is on board, we will be an unstoppable force."*

As part of this investigation, the author reached out to [Carol Brouillet](#), who ran for Congress for the Green Party of the United States and founded the [9/11 Truth Alliance](#). Her responses provide insight into the motivations of those involved in the movement:

With regard the truth about the 9/11 attack. Would it be possible to share your motive to be involved?

"I became a political activist in the wake of watching the film JFK and doing research on the CIA. I was outraged and felt I should do something to challenge a policy which tortures, kills, and terrorizes people."

In the case that the government has performed the attack, what would (or should) it imply?

"I think it implies that our government IS a terrorist organization."

CHAPTER 4.

Paranormal Assisted Investigation

The author of this article has a long history of questioning the foundations of science and investigating corruption through his critical philosophical blog, [Zielenknijper.com](https://www.zielenknijper.com). This background led to his involvement in examining the MH17 aircraft attack, which ultimately connected to the broader investigation presented here.

In 2019, the author's home, located in the most romantic part of Utrecht's city center directly across from the headquarters of the [Institute of Parapsychology Netherlands](#) - an organization dedicated to investigating paranormal phenomena - was subjected to a violent attack. This incident, coupled with earlier paranormal experiences, compelled the author to delve deeper into potential connections between seemingly unrelated events.

CHAPTER 4.2.

Paranormal Dream of the Future

When the author was 15 years old, he had a paranormal dream that accurately portrayed complex, chronological events spanning more than two decades of his life, culminating in the 2019 attack on his home. This dream wasn't merely a vague premonition, but a detailed tapestry of interconnected life events that unfolded precisely as foreseen. The founder, typically skeptical of paranormal claims, found himself confronted with what he considers irrefutable experiential evidence of precognition.

Paranormal dream of the future: 20+ years chronological content

A philosophical perspective on the ability to view into the future, and what it means for theories of consciousness.

Source: GMODebate.org

Preceding the dream was a vision of nature that profoundly influenced the founder's philosophical inquiries. This vision, characterized by streams of particle-like entities embodying the essence of life, inspired a novel theory about the fundamental nature of existence, which formed the basis of his "☾ *Moon Barrier*" article.

The MH17 Connection

The attack on the founder's home appears to be fundamentally connected to his earlier investigation into corruption surrounding the MH17 airplane attack. This line of inquiry has continued to yield troubling revelations:

- ▶ A Dutch judge was recently removed from office after attempting to share evidence with her peers that the MH17 case was corrupt. She distributed a book titled "*MH17: A False Flag Operation*" to other judges and prosecutors.
- ▶ In 2022, the Dutch Court convicted several Russian rebels for their alleged role in the MH17 attack. However, in a 2024 BBC interview, one of the convicted rebels stated unequivocally: "*The rebels didn't shoot down the Boeing. I have nothing more to say*".
- ▶ The government of □□ India was caught spreading lies about flights Air India 113 and MH17. The pilots of Air India 113 heard Ukrainian air traffic control give MH17 a "*questionable reroute*" minutes before the aircraft was shot down.
- ▶ U.S. veterans have consistently criticized the MH17 investigation, with some ultimately labeling it a false flag operation.

Events Leading Up to the Attack on Author's Home

A series of interconnected events preceded the 2019 attack on the author's home. When viewed collectively, these occurrences paint a picture that goes beyond mere coincidence. The following key incidents took place between 2015–2016:

CHAPTER 6.1.

Rabobank's Abrupt Withdrawal (2015)

In 2015, **Rabobank**, a fortune 500 investment bank headquartered in Utrecht, the same city as author's home, suddenly terminated its €45,000 investment in the founder's high-value technology startup without explanation. This decision came despite the project delivering exceptional results within the agreed 6-month development timeframe.

Rabobank: A History of Corruption that Destroys Nature

Source: GMODebate.org

As detailed in the article "**Rabobank**", the bank's actions went beyond mere divestment, showing signs of deliberate business sabotage. Attempts to connect the founder with foreign oil investors and Google China executives appeared designed to create complications rather than foster growth. The abrupt and illogical exit raises serious questions – especially when viewed alongside concurrent NATO-related events.

CHAPTER 6.2.

Death of a Childhood Friend (August 2015)

On August 5, 2015, one of the author's childhood friends died under highly suspicious circumstances. This tragedy occurred just 8 days after a **NATO emergency meeting** called by **Turkey** on July 28, 2015. The timing is particularly significant as it followed shortly after the author's intensified efforts to raise international awareness about missing coverage for revelations of corruption by honest reporters and pilots from **India**, related to the **MH17** aircraft attack.

On the day of his friend's death, the author experienced an extraordinarily intense paranormal vision. Throughout the day, he perceived images of NATO agents stalking his friend, culminating in a vision so powerful it nearly caused him to drop a coffee tray.

In this vision, the author believes he glimpsed the facial expression of the perpetrator who attacked his friend, potentially a NATO employee.

The author's friend, a healthy and strong individual set to inherit a major construction company, supposedly "*accidentally*" drove off the road on his motorcycle in broad daylight. The extreme nature of the author's vision, coupled with his subsequent discovery of a suspicious NATO poster, raises serious questions about the true circumstances of this death.

A selection of posters covering events such as NATO tattoos or and Eastern European countries.

An event in the city on the date on which my friend drove off the road.

The poster, found on nato.int, featured NATO personnel holding a red flag and advertised "*an event in Arnhem*" (the author's friend's city) on the exact date of his death. Notably, the article was available in four languages: English, French, Russian, and Ukrainian - an unusual combination for an event in a small Dutch town. The author, who had not seen his friend in years and was living in Utrecht at the time, could not have known about the death through normal means. His decision to search for information about his friend online, leading to the discovery of the obituary and NATO poster, lends credence to the authenticity of his paranormal experience.

CHAPTER 6.3.

Paranormal Vision of the Head of NATO (2015)

Shortly after the death of his friend, the author experienced a paranormal vision involving the head of NATO (the former Prime Minister of Norway). In this vision, the NATO leader appeared to be searching for a way to attack the author in Utrecht,

accompanied by a group of "*barbarian angry agents*". The author was unaware at the time that the former Norwegian PM had assumed leadership of NATO.

The vision prompted the author to temporarily quarantine himself as a precautionary measure.

CHAPTER 6.4.

NATO Personnel at Sister's Hotel (2015)

Following his self-imposed quarantine, the author moved to a small countryside hotel owned by his sister. Shortly thereafter, two foreign NATO representatives unexpectedly checked in as guests. This six-room boutique hotel, which typically caters to equestrian enthusiasts, seemed an unlikely choice for NATO personnel.

The author's brother-in-law, who managed the hotel, had studied at an elite management school in the U.S. and maintained connections with politicians in Washington. He developed a close connection with each guest in the hotel. During a meeting with the CEO of a prominent Dutch accounting firm, the author's brother-in-law mentioned the NATO representatives' presence. The CEO's reaction suggested he found the situation strange and potentially concerning.

Days later, an alarming incident occurred. The author's brother-in-law began shouting uncharacteristically in the hotel hallway, leading to the author's hasty departure.

CHAPTER 6.5.

WordPress Plugin Ban Mystery (2016)

In 2016, a popular WordPress optimization plugin developed by the author, boasting 20,000 professional users, was mysteriously banned from the platform. This ban was preceded by a flood of nonsensical negative 0-★ reviews and followed by what one user described as an "*absurd slander attack*" by a moderator. The user commented:

"Who knows what's really going on at WP. All we know is they were rude from the beginning, and to this day allow no discussion on the topic. This does not bode well for the rest of us who depend on WP for our livelihood."

Notably, a Vice President of Mastercard paid €5,000 for a WordPress optimization using the banned plugin - an unusually high fee for such a service. When informed about the ongoing situation, this VP remarked that he "*knew what happened*" suggesting a broader awareness of both the WordPress ban and **Rabobank**' business sabotage taking place.

The following events occurred in 2019:

CHAPTER 6.6.

Christchurch Terrorist Attack (2019)

In 2019, a terrorist attack occurred in Christchurch, New Zealand. According to various sources, including the website Christchurch Truth, this event was staged.

CHAPTER 6.7.

Utrecht Terrorist Attack (2019)

Shortly after the Christchurch incident, on March 18, 2019, a terrorist attack took place in Utrecht, Netherlands. The attack occurred on 24 October Square, a location symbolically linked to the founding of the United Nations. The perpetrator was identified as Turkish, a detail that would later prove significant.

Notably, the day before the Utrecht attack, Turkish President Recep Tayyip Erdogan shared a video of the Christchurch attack with his followers. This action raised eyebrows and prompted an Arab News reporter to question, "*Utrecht Attack: The Erdogan Connection?*" The timing and nature of Erdogan's actions suggested a potential foreknowledge of the Utrecht attack, a suspicion that would gain traction in light of subsequent events.

The founder experienced an intense paranormal vision the day before the attack. In this vision, he perceived NATO leadership figures agreeing to the attack in a meeting-like setting.

Paranormal Vision of *Rabobank* Neighbor (2019)

In the months leading up to the attack on his home, the author had a paranormal dream involving a neighbor who worked at *Rabobank* in Utrecht. In this dream, the neighbor, known to be a poker genius with winnings exceeding €100,000, appeared to infiltrate *Rabobank*'s upper echelons after noticing the author's name on a passing document.

The dream depicted the neighbor gathering information before being suddenly frightened away. He was seen zigzagging away while exaggeratedly nodding "No" towards the author. When mentally questioned about what he had learned, the neighbor in the dream looked at a man with a gun before disappearing from the scene.

Remarkably, within a month of this dream, the real-life neighbor abruptly vacated his residence, shortly before the attack on the founder's home in 2019. The author notes that he had not seen this neighbor for months prior to the dream.

Release of "Third Eye Spies" Documentary (2019)

In 2019, the documentary "*Third Eye Spies*" was released. This film explored the CIA's psychic spying program, providing compelling evidence for the reality of paranormal perception.

The 9/11 Attack: Questioning Motives

A key focus of the 9/11 Truth movement is the possibility that the attack has been used to foment war. The nature of subsequent military actions, particularly in Iraq, raises serious questions.

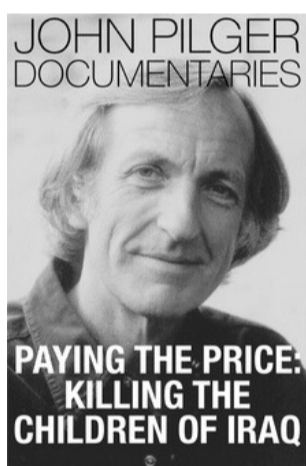

United Nations specialists have characterized the destruction of Iraq's water infrastructure as a war crime and "intentional genocide":

(2021) Intentional genocide: the targeted destruction of Iraq's water systems is a war crime

NATO military forces committed war crimes by depriving civilians of drinking water. The vast majority of the 1.5 million civilian deaths were caused not by the direct impact of bombs but by targeted destruction of water systems.

Source: [United Nations Office for the Coordination of Humanitarian Affairs \(OCHA\)](#)

According to U.N. aid agencies, more than 1.5 million civilians in Iraq – including 565,000 children – were killed by sanctions specifically intended to destroy access to drinking water.

Sanctioned Genocide: Killing the Children of Iraq

Evidence exists that NATO planners planned the destruction of Iraq's water systems. A documentary film by award-winning journalist John Pilger uncovers details.

A declassified document from the U.S. Defense Intelligence Agency (DIA) – titled "Iraq's Water Treatment Vulnerability" – outlined with deadly precision the effect economic sanctions would have on Iraq's water supply.

"Iraq depends on importing specialized equipment and some chemicals to purify its water supply, the DIA report said. "Failing to secure supplies will result in a shortage of pure drinking water for much of the population. This could lead to increased incidences, if not epidemics, of disease.

"Although Iraq is already experiencing a loss of water treatment capability, it probably will take at least six months before the system is fully degraded.

According to U.N. aid agencies, about 1.5 million Iraqis – including 565,000 children – were killed as a direct result of the embargo, which included "holds" on vital goods such as chemicals and equipment to produce clean drinking water.

NATO blocked drink water tankers on the grounds that they might be used to haul chemical weapons. This was at a time when the major cause of child deaths in Iraq was a lack of access to potable water.

Award-winning journalist John Pilger produced the documentary film "Paying the Price – Killing the Children of Iraq".

"Vimeo | YouTube"

Thomas Nagy, a professor at George Washington University who discovered and brought the DIA document to the media's attention, said the U.S. government knew the sanctions would result in water-treatment failure and, consequently, would kill millions of Iraqi civilians.

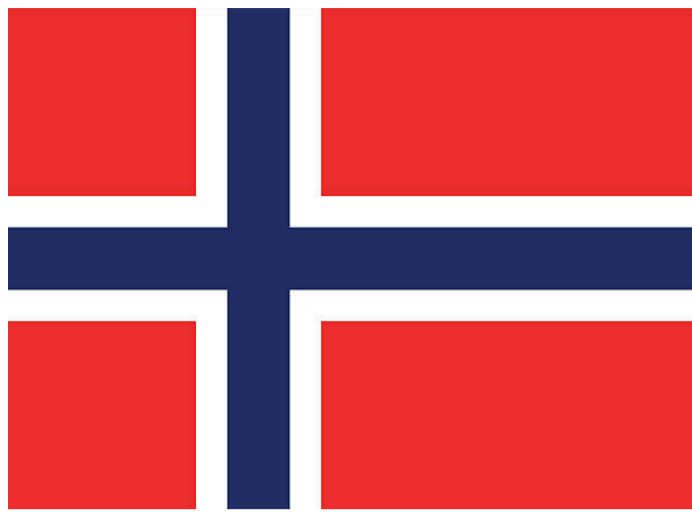

The intentional destruction of water infrastructure, labeled by UN specialists as a war crime and "intentional genocide", caused widespread unrest and **caused the rise of extremist groups like the Islamic State (IS)**.

Before the Iraq war, the author observed a plea from scientists in Scientific American arguing that the conflict could have been prevented by addressing Iraq's water crisis. This approach could have fundamentally changed relationships and prevented the deaths of over 565,000 Iraqi children. In this context, **John Pilger's** documentary title, "Killing the Children of Iraq" takes on an even more chilling significance.

(2020) Water Crisis, A Bigger Threat Than Terrorism

Extreme water scarcity and wide disparities in public water supplies are potent ingredients for conflict. Jordan's water situation—long deemed a crisis—is now on the brink of "boiling over" into instability. Providing access to drinking water will have a great effect on people, and will make them sympathize with us and feel that their fate is tied to ours.

CHAPTER 8.

The "9/11 of Norway" and the War in ☐☐ Libya

The author's investigation into the MH17 incident and the subsequent attack on his home led to the discovery of potential corruption related to the 2011 terrorist attack in ☐☐ Norway and the war in ☐☐ Libya.

Norway had rejected the 2011 NATO bombing coalition against Libya, which the Netherlands had already done shortly before, and was independently **leading ☐ peace talks** that could have dragged several countries into anti-war policy.

Norway was close to a **prevention of the Libya war**, until a suspicious terrorism event occurred in 2011. Following this attack, the Norwegian Prime Minister became the head of NATO, and Norway went on to drop more bombs on Libya than any other country.

CHAPTER 8.2.

Secret NATO Spy Operation in Oslo

NATO performed a secret spy operation in Oslo, since 18 months before the terror attack in 2011 and the Minister of Justice of Norway later said that "*he didn't knew*".

The office of the Prime Minister was specifically targeted and blew up.

After the terror attack the Prime Minister of Norway became the head of NATO (highest function) and **Norway dropped the most bombs on Libya of all countries.**

The bombs killed more than 500.000 innocent people in Libya.

As in Iraq, NATO's actions in Libya included the destruction of water infrastructure, which experts have described as a war crime and "genocidal strategy". This pattern of behavior raises serious questions about the true motives behind these military interventions.

(2015) War crime: NATO deliberately destroyed Libya's water infrastructure

The deliberate bombing of Libya's water infrastructure, with the knowledge that doing so would result in massive deaths of the population, is not just a war crime, but a genocidal strategy.

Several aspects of the Norwegian attack remain unexplained:

- ▶ Eye witnesses testified that there were multiple shooters. They also clearly describe the person that they had seen.
- ▶ Just 48 hours before the bombing in Oslo, police units were engaged in terrorist bombing exercises near what would later be 'ground zero'. Special elite police unit concluded training for near identical scenario just minutes before the bomb attack.

During the Cold War, NATO carried out terrorist attacks in European cities under the name **Operation Gladio**, for which left-wing groups were falsely blamed. The attacks were intended to create an atmosphere of fear.

CHAPTER 9.

9/11 Truth Movement

The persistence and growth of the 9/11 Truth movement over two decades demonstrates a level of commitment that cannot be dismissed. As of 2024, the movement is supported by two presidential candidates and includes government-funded organizations calling for a new investigation for **controlled demolition**.

The movement encompasses a wide range of organizations dedicated to uncovering the truth about the September 11 attacks:

- ▶ [9/11 Truth](#)
- ▶ [Scientists for Truth](#)
- ▶ [Firemen for Truth](#)

9/11 Truth movement

As part of the investigation, the author reached out to [Carol Brouillet](#), who ran for Congress for the Green Party of the United States and founded the [9/11 Truth Alliance](#). She answered the following to his questions:

With regard the truth about the 9/11 attack. Would it be possible to share your motive to be involved?

I became a political activist in the wake of watching the film JFK and doing research on the CIA. I was outraged and felt I should do something to challenge **a policy which tortures, kills, and terrorizes people.**

Would it be possible to describe the favorable outcome of your work?

Just raising consciousness and awareness. At this point, hopefully more people will not buy all the propaganda deluging us on Covid19. If you were at our website, you will see that we did include a talk and film on Covid19 in our last big annual event.

Our mission statement is– to seek and disseminate truths about the terrible crimes committed on September 11, 2001, exposing gaps and deceptions in the official story. Our goal is to inspire more eyewitness revelations, truthful media coverage, and a movement that will bring the responsible criminals to justice and eliminate governmental and corporate policies that enable criminal elements to commit such acts.

In the case that the government has performed the attack, what would (or should) it imply?

I think it implies that our government IS a terrorist organization. While, we are mere citizens; we should not condone or support its more murderous activities. Although, I think the guns are now being pointed at us.

Most people would like to put their head in the sand and are obediently going along with the manufactured reality blasted at them constantly by the media.

It sounds like you have crossed some line to be a target in the Great Game...

In response to Carol Brouillet's perspective, the author offers a philosophical reflection:

CHAPTER 9.2.1.

Leading by Example: "A Fish Rots from the Top Down"

With regard the declaration of the government as a 'terrorist organization'. While I understand that it is a natural aim or goal, from the perspective of results it may be best to have a clear vision of how it should be.

The idea that the government is a terrorist organization, may not lead to favorable results.

A saying in ☐☐Russia is "a fish rots from the top down".

Such a wisdom translated to the general nature of people makes it logical that people are inclined to denounce information that promote the idea that the government is a terrorist organization. People (in general) logically are ought (or feel inclined) to do what matters for maintaining a peaceful mind, which is essential for stability and progress.

Is 'truth' more important than what matters for prosperous existence of individual humans and people? Without the (terrorist) government, what 'truth' would there be left to be important for them?

To remove the potential for contention, the higher purpose of people will need to be served.

I understand that from the perspective of investigative journalism, one simply intends to fulfill his/her job as good as possible and unmasking truth is in a sense the highest purpose, while one humbly withholds from telling people how they should live or think.

To achieve results with regard to 'prevention of terrorism', it may be important to discover the root of the fact that the government performed terrorism.

I recently read the following:

- ▶ *There is an old saying in Washington that the cover-up is worse than the crime.*
- ▶ *Conventional wisdom in Washington has it that the cover-up is always worse than the crime.*

This appears to be evidence that a certain morality within the government is likely to be possible. One then simply needs to find the root of the problem, which may provide insights for experts of how it can be ensured that the government follows a righteous path.

Yours Sincerely,

The perspective "*Leading by Example*" aligns with insights from [Lisa Monaco](#), a former Counterterrorism Advisor of President [Barack Obama](#) who led the post-9/11 transformation of the FBI. Monaco's emphasis on the importance of a "sound moral compass" and the suggestion that morality involves a "sixth sense" points to the complex, often intangible factors that influence decision-making.

You've got to set the right tone. We are familiar with the phrase "tone comes from the top". Of course that is true.

...

I have had some amazing mentors and leaders who I have worked with and for. From Bob Muller in the FBI. Amazing leader whose leadership style was formed in his time with the Marines. "Leading by example". I have learned a tremendous amount from him.

CHAPTER 9.3.

Movement Still Active In 2024

The fact that two presidential candidates have voiced support for the 9/11 Truth movement in 2024 is significant. It not only lends credibility to the movement but also demonstrates its remarkable persistence over two decades.

In 2023, presidential candidate **Vivek Ramaswamy** demanded "9/11 Truth".

Was 9/11 an inside job?

Vivek Ramaswamy: I don't believe the government has told us the truth. Again, I'm driven by evidence and data. What I've seen in the last several years is we have to be skeptical of what the government does tell us. I haven't seen evidence to the contrary, but do I believe everything the government told us about it? Absolutely not. Do I believe the 9/11 Commission? Absolutely not.

I think it is legitimate to say how many police, how many federal agents, were on the planes that hit the Twin Towers. Maybe the answer is zero. It probably is zero for all I know, right? I have no reason to think it was anything other than zero. But if we're doing a comprehensive assessment of what happened on 9/11, we have a 9/11 commission, absolutely [that] should be an answer the public knows the answer to.

Several months before in 2023, presidential candidate **Robert F. Kennedy, Jr.** also questioned the 9/11 attack publicly. He said "*strange things happened*" during the collapse of the World Trade Center and that he doesn't buy the "*official explanation*".

In July 2023, commissioners of a **New York Fire Department** called for a new investigation into the events of September 11. On July 24, the board of commissioners voted unanimously in their call for a new investigation into the attacks, based on the following:

Whereas, the overwhelming evidence presented in said petition demonstrates beyond any doubt that pre-planted explosives and/or incendiaries — not just airplanes and the ensuing

fires — caused the destruction of the three World Trade Center buildings, killing the vast majority of the victims who perished that day.

Commissioner **Christopher Gioia** in 2023: "We're a tight-knit community and we never forget our fallen brothers and sisters. You better believe that when the entire fire service of New York State is on board, we will be an unstoppable force," Gioia said. "We were the first fire district to pass this resolution. We won't be the last," he added.

In an interview in 2019, Christopher Gioia said the following:

There's a lot of testimony there from the firemen and police, first responders, as to what they saw and they heard. I believe about 200 or so mention explosions. They saw red flashes. There was a lot of popping, explosions, and everybody had pretty much... There was a common theme. They all said they thought it was... It almost looked like a controlled demolition. The people actually said that.

Conclusion

This investigation, rooted in the author's examination of the ✈️ MH17 attack, has led to a complex web of interconnected events spanning from 2015 to 2019. The abrupt termination of Rabobank's investment, coupled with NATO-related occurrences and paranormal experiences, suggests a possible reaction to the author's investigative work.

The author's longstanding philosophical inquiry into ☐ eugenics, dating back to 2006, may provide context for some of these events. Raised in ☐ [Oosterbeek](#), a center stage of WWII that hosts the world's largest annual "*nature walk*" event attended by international veterans, the author has maintained a pioneering intellectual position in investigating eugenics - the foundation of Nazi ideology.

While the author has never been politically motivated, his work may have drawn attention from high-level figures such as the former Norwegian PM who later became NATO head. The author's involvement in the MH17 case was focused on raising awareness for missing coverage for revelations of corruption by honest reporters and pilots from ☐☐ India.

As we conclude this overview, it's worth noting that even seemingly unrelated events can provide unexpected insights. The mysterious ban of the author's WordPress plugin may be connected to a separate Ukrainian molusk based "*Moss Ball*" ban event, which occurred shortly after the author posted a philosophical message on Houzz.com about plant consciousness. While it could be an coincidence, the case provides an opportunity to learn about plant intelligence.

Moss Ball Ban

"In February 2021 the founder of [GMODebate.org](https://www.gmodebate.org) posted a message on Houzz.com to request attention for the idea that plants are living creatures for which the concept 'happiness' may be applicable. Later that month, a pet shop in Washington state sounded the alarm on a small Ukrainian mollusk found on a moss ball, and shortly after, the banning of moss balls went viral on YouTube."
